

# Commercial Vegetable Production, 2005

By Mark A. Linstedt

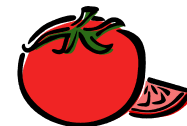

**Production:** Pennsylvania's total production of both fresh market and processing principal vegetables for 2005 was 197,350 tons, down 17 percent from 2004. Fresh market production in 2005 was down 11 percent, and processing was down 38 percent.

Sweet corn production decreased 22 percent for fresh market, and processing production decreased 17 percent. Fresh market tomato production decreased 8 percent from 2004. Strawberry production was down 11 percent, while snap bean production for processing decreased 41 percent from a year ago. Total pumpkin production for fresh market and processing was 1,313,000 cwt., up 1 percent from 2004.

**Yield:** Sweet corn yields decreased 14 percent for fresh market and increased 9 percent for processing. Tomato yields decreased 10 percent for fresh market over the previous year level. Strawberry yields decreased 11 percent; snap bean yields decreased 17 percent from 2004.

**Acreage:** Total harvested acreage for fresh and processing vegetables was down 15 percent at 42,100 acres. Fresh market harvested acreage decreased 8 percent to 31,300 and total processing harvested acreage decreased 29 percent to 10,800.

**Value:** The combined value of both fresh and processing vegetables was \$88,898,000, a decrease of 1 percent from 2004. The fresh market section totaled \$82,203,000, up 4 percent. Processing vegetables totaled \$6,695,000 in 2005, down 39 percent. Fresh market prices per hundredweight were higher for sweet corn, cabbage, tomatoes, cantaloups, and strawberries, but lower for pumpkins. Processing vegetable prices per ton were up for sweet corn and snap beans.

Pennsylvania: Total Principal Vegetables, Fresh and Processing, 1989-2005

Year	Fresh				Processing				Total
